Corps of Engineers proposes improvements to White Flint Park at Belton Lake

The U.S. Army Corps of Engineers is continuing its long-term effort to plan and construct major improvements to the recreational facilities at Belton Lake and is announcing initiation of a planning effort for facility improvements at White Flint Park. Facility improvements have already been completed at several Belton Lake parks. Planning for White Flint Park, which is located within the northernmost portion of the lake adjacent to State Highway 36, is now underway.

At this time, the Corps is requesting comments and recommendations from the public concerning present-day and future recreational uses and facilities at White Flint Park. This is an opportunity for the public to make park facility preferences known to the Corps and to comment on operation and management issues.

Written comments should be sent to the following address by December 7, 2001:

U.S. Army Corps of Engineers
Belton/Stillhouse Hollow Lake Office
ATTN: Murray McCarley
3740 FM 1670
Belton, Texas 76513-9503

E-mail comments may be sent to: Murray.W.McCarley@swf.usace.army.mil

Final park improvement design plans will be available for public review in early spring of next year at the Belton/Stillhouse Hollow Lake Office and on the Belton Lake homepage:
